

LOOKING AHEAD.

80 years of knowledge and experience. This is the result and the advantage of working with the MJB and Liberty Woods team. With our recent partnership, we are looking forward with exciting product solutions that ensure reliability and quality control while maintaining the highest compliance standards in our industry.

As we look to the year ahead, here's what we know: the pandemic and global trade tensions are here to stay. But our business remains strong and our customers are thriving. Together, we can help you achieve your business objectives during these uncertain times and thrive again with valuable advantages:

- High-quality, legally sourced products.
- In-country QC and inspection resources to protect your reputation and supply. This is Tutus, our Indonesian-based Inspector pictured at left.
- Vendor managed inventory systems.

planning for the future.

Our 17,400 ton shipment (shown above) set a US port RECORD for the largest single delivery. That's 18,278 crates of our plywood onboard and just one example of the many wood-based products we specialize in.

our products.

- Composite Panels
- Sheet Stock
- Plywood
- Strand Lumber
- Dimensional Lumber
- Wood Components
- Moulding & Millwork
